Safety Precautions

Thank you for choosing our portable DVD player. It includes a 9" display and built-in DVD player. This unit is designed for use at home or on the go. Please read the manual carefully prior to use and keep it for future reference.

Warning: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

- 1) Please read the instruction manual carefully and follow all the requirements of safe operation to operate the device.
- 2) Do not use this unit near water. Do not place the unit over any container with liquid inside.
- 3) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 4) Unplug this unit during lightning storms or when unused for long periods of time.
- 5) Cleaning: Unplug the system, use only wet cloth to clean. Do not use liquid detergent or aerosol.
- 6) Only use accessories specified by the manufacturer.
- 7) Refer all servicing to qualified service personnel when the unit has been damaged, such as damaged power supply cords or plugs, spilt liquid in the device, exposure to moisture, or if the device is not operating normally. Don't try to repair the machine by yourself because of the danger of high voltage and electric shock.
- 8) Do not use irregular shaped discs such as heart or star-shaped discs as they may cause to the unit malfunction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- .. Reorient or relocate the receiving antenna.
- .. Increase the separation between the equipment and receiver.
- .. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- .. Consult the dealer or an experienced radio/TV technician for help.

Package

DVD Player	1
9" LCD Monitor	1
Remote Control with battery	1
AC/DC Power Adapter	1
Cigarette Lighter Adapter	1

System Connection

Powering and installation

Plug one end of the AC/DC power adaptor into the DC IN 9-12V jack on the right of the unit, then plug the other end into the AC power receptacle. Please refer to the following illustration.

If using car cigarette lighter adaptor to connect to the power: Plug one end of the cigarette lighter adaptor into the DC IN 9-12V jack on the unit, plug the other end into the car cigarette lighter socket. See illustration below.

- Note:
1. Car cigarette lighter adaptor is not recommended to recharge the battery.
 2. Car cigarette lighter adaptor can only be used when the car power supply is 9-12V.
 3. The main plug is used as the disconnect device, the disconnect device should remain readily operable.

Connecting to monitor

The unit can also be connected to the external LCD monitor.
Connect the unit to power by AC/DC adapter or cigarette lighter adapter.
Then connect the unit DC OUT jack to DC IN 9-12V Jack of the LCD Monitor by a DC/AV cable.
Also use this DC/AV cable to connect the AV OUT jack of the unit to AV IN jack of the Monitor.
Please refer to the illustration below.

Note:
You're advised to supply both units power only by using the cigarette adapter. The AC/DC adapter is used to supply power to only one unit. The charger is used to charge the main unit.

Connecting with external speaker

The unit can be connected to external speakers. Please see the following illustration.

Note:
5.1 channel will only be available after connecting to AMP.

The Remote Control

- | | |
|---|--|
| 1. Number button | 11. ZOOM (To zoom in/out the image during the playback) |

Specification

Compatible disc: DVD/VCD/CD/MP3/MPEG4
 Signal system: PAL/NTSC
 Panel size: 9 inch
 Frequency response: 20Hz to 20kHz
 Video output: 1Vp-p/75Ohm, unbalanced
 Audio output: 1.4Vrms/10kOhm
 Audio S/N: Better than 80dB
 Dynamic range: Better than 85dB
 Laser: Semiconductor Laser, Wave Length: 650nm/795nm
 Power source: DC 9-12V
 Power consumption: 10W
 Operating temperature: 0~40°C
 Weight(Monitor/DVD Player): 0.52 / 0.93kg
 Dimensions (Monitor/DVD Player)(W x D x H): 270x185x24/270x186x40 mm
 Battery Type: Li Polymer

Note:

1. The quality and speed for reading JPEG photos depend on the resolution and compression ratio of the photos. Some JPEG photos may not be played due to the disc quality and the formats.
2. Some DVD+R/RW, DVD-R/RW, CD-R/RW discs may not be played due to the quality on burning conditions.

Troubleshooting

PROBLEM	SOLUTION
No sound or distorted sound	Make sure the machine is connected properly. Make sure all cables are securely inserted into the appropriate jacks.
Can't advance through a movie	You can't advance through the opening credits and warning information that appears at the beginning of movies because the disc is programmed to prohibit that action.
The icon  appears on screen	The feature or action cannot be completed at this time because: 1. The disc's software restricts it. 2. The disc's software doesn't support the feature (e.g., angles) 3. The feature is not available at the moment. 4. You've requested a title or chapter number that is out of range.
Picture is distorted	The disc might be damaged. Try another disc; it is normal for some distortion to appear during forward or reverse scan.
No forward or reverse scan	Some discs have sections that prohibit rapid scanning or chapter skip; If you try to skip through the warning information and credits at the beginning of a movie, you won't be able to. This part of the movie is often programmed to prohibit skipping through it.

If at any time in the future you should need to dispose of this product please note that waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice. (Waste Electrical and Electronic equipment Directive)

Due to continuous improvement of the unit, no prior notice will be given regarding changes on above features and specifications.
